Loving the World into Balance

Contemplate the injustices faced by all species due to the climate crisis. Discover a path to feeling interconnection and love for all beings to bring the world back into balance. This talk was inspired by GreenFaith's "Sacred Season for Climate Justice."

Broken Turtles: healing through wildlife rescue

Consider wildlife rehabilitation as your way of giving back to the Earth. I will share my spirit-led path to becoming a licensed wildlife rehabber and founding a nonprofit turtle rescue. Open your heart to leading a compassionate life and hear some ways you can help wildlife.

The Hard Work of Standing Up

A physical and emotional health crisis during the pandemic sparked a journey to find practices to shift from pain to purpose. Be encouraged by concrete steps you, too, can take to feel grounded and empowered to do the hard work of standing up for a cause.

Shamanic Reiki: a contemporary approach to ancient medicine

Find out about the practice of Shamanic Reiki in a talk woven with stories and magical experiences. You will gain a basic understanding of this blend of shamanism and Reiki and learn how to begin your own practice.

Reverend Debbie Philp's ministry is centered in spiritual ecology and our relationship with wildlife. Her inspirational talks encourage a loving relationship with nature as a path to healing. Debbie weaves in stories from her own experiences as a shamanic practitioner, Pagan, and wildlife rehabilitator and shares teachings from Shamanic Reiki and environmental education.

Debbie has years of experience training Shamanic Reiki practitioners, as well as her own legacy of service, leadership, and advocacy. Debbie and her family share their mountain home with several creatures, including a bale of rescued turtles.
